

Visible cracking above a terrain trap

Date

Sat, 02/10/2024 - 15:16

Activity

Snowmobiling

As we were coming out, I spotted this cracking above the creek. A sled has passed nearby on the right side (you can see the track). The snow cracked and was starting to rub in the left (barely).

It was above the creek and could have created a trap for someone below.

This is just below the cabin Creek cabin where all the stands coverage.
