

Winds and bad snow at the Throne

Date

Sun, 01/12/2025 - 14:35

Activity

Skiing

Headed out to the throne today. Had light to moderate winds from the west blowing all day long at all elevations. Found heavily wind affected skiing in open meadows and softer snow in the trees. Stayed out of avalanche terrain and found no signs of instability. Snow was visibly being transported all day.

Region

Bridger Range

Location (from list)

The Throne

Observer Name

Spencer Lipsteuer
