

Breaking and Small Slide on Bridger D route

Date

Wed, 02/05/2025 - 12:45

Activity

Snowboarding

I was boarding Job 1 (E, NE aspect) in the Bridger D route. We had 6-8 inches of new snow and I triggered a large break, and 2-3 turns later triggered a small avalanche that traveled 30 ft rfar and was about 4 inches deep. I was the last one on the route before ski patrol closed it down.

Region

Bridger Range

Location (from list)

Bridger Bowl Weather Station - The Ridge

Observer Name

Griffin
